EDUCATION

Bachelor of Science (Hons.) in Mathematics

Jan 2018 – Jun 2023

University of Lagos, Akoka, Lagos, Nigeria

PROJECTS

PZ WEBSITE REVAMPING

April 2025

Live: fmgc-client-edat.vercel.app/

- Collaborated and revamped PZ site, a web application designed to showcase a new digital benchmark for PZ, driving brand visibility, user satisfaction, and term scalability in a rapidly evolving digital landscape. It features modules covering inventory, logistics and reports
- Implemented user authentication (signup, login, and password recovery APIs) and email notifications with secure JWT-based access ensuring data protection.
- Built using React.js, Tailwind CSS, Node.js(Express), MongoDB and JWT authentication, ensuring scalability and performance

VENTURESPHERE-APP

Dec 2025

Live: venturesphere-app.vercel.app/

- Developed Venture-sphere-app, it is a UI web-based platform designed to connect startups with investors, offering streamlined interface for showcasing startup. It serves as a bridge between innovative entrepreneurs and investors seeking promising ventures.
- Deployed the web-application on Vercel, leverage its global CDN for fast loads and responsive performance.
- Utilized framer motion to achieve smooth, engaging animations throughout the site.

MERN-APP

Sept 2024

Live: mern-app-dp5x.vercel.app/

- Designed and deployed a responsive web application using React.js as part of a MERN stack project. The application allows HR personnel to add, update, and manage detailed employee records, including personal details, job titles, departments and contact information.
- Integrated frontend with backend APIs using Axios, enabling seamless user authentication, data retrieval, and CRUD operations with real-time feedback via toast notifications.
- Utilized React Hooks, Context API, and functional components to manage application state efficiently enhancing maintainability and performance of the codebase.
- Deployed the application on Render for backend and Vercel for frontend, optimizing and enabling a seamless user experience across devices and platforms.

CERTIFICATION

Full Stack Web Development Certificate

Jun 2024 - May 2025

Tech Studio Academy, Lagos, Nigeria

Completed an intensive, physical program covering HTML, CSS (including Tailwind CSS), JavaScript, React, Node.js, Express and MongoDB, Built and deployed several applications.

TECHNICAL SKILLS

- **Languages:** JavaScript
- **Front-end Frameworks:** React.js, Tailwind CSS, HTML5, CSS
- **Database:** MongoDB
- **Other:** GitHub
